Description

The AdMat is a hard-working advertising tool, ideal for making a strong first impression for your business. Easily washable and available in small quantities, it’s a simple yet effective way to showcase your brand wherever you go. Variable-data printing (VDP) Also known as variable-information printing (VIP) or VI) is a form of digital printing, including on-demand printing, in which elements such as text, graphics, and images may be changed from one printed piece to the next, without stopping or slowing down the printing process and using information from a database or external file. For example, a set of labels, each with the same basic layout, can be printed with a different name on each label. Variable data printing is mainly used for direct marketing, customer relationship management, advertising, invoicing and applying addressing on self-mailers, brochures, or postcard campaigns.

Details

Item Size
850mm W x 550mm H

Decoration Options
